

PowerShell Objects

Pictorial description of
Objects, Properties and Methods

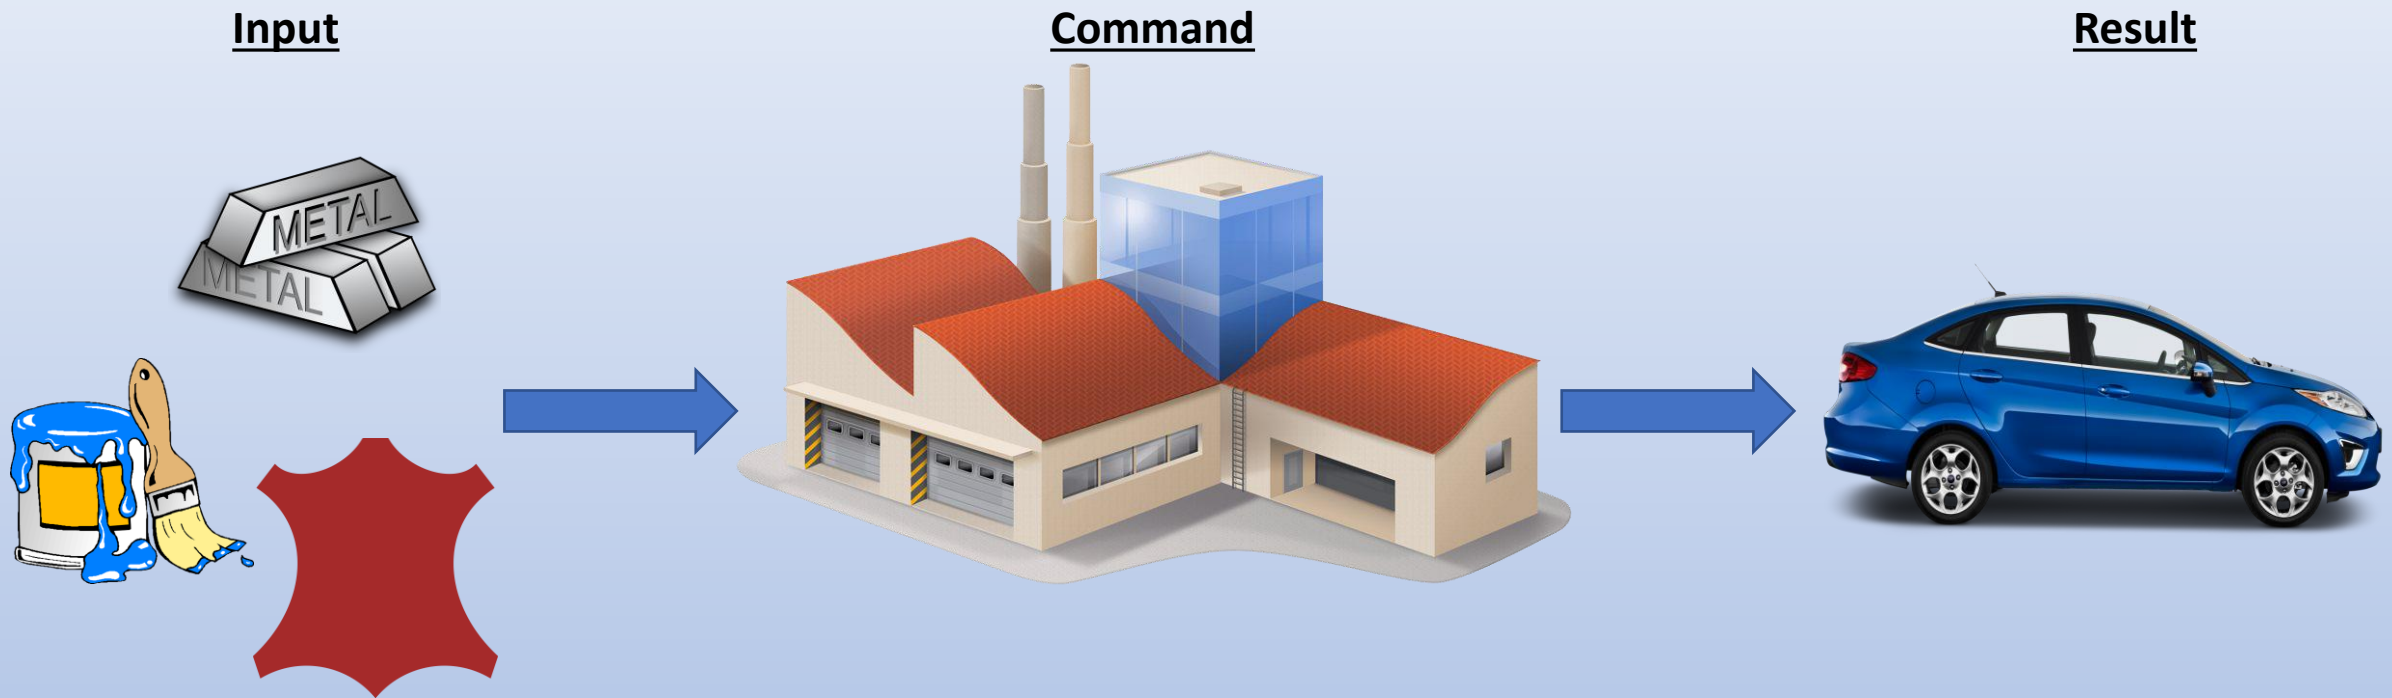

Objects contain Properties and Methods

Understanding Commands

Key commands to make PowerShell easier

A PowerShell Command is like a factory

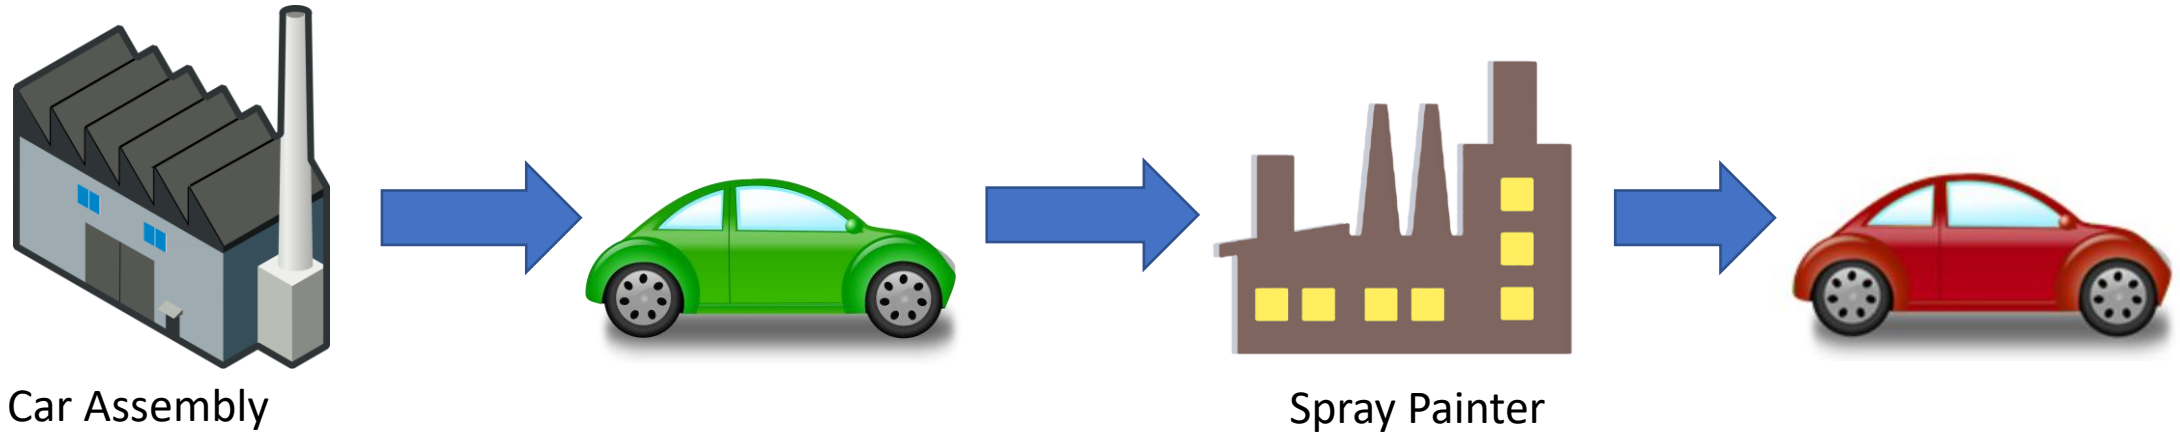

Key PowerShell Commands

Pipelines in PowerShell

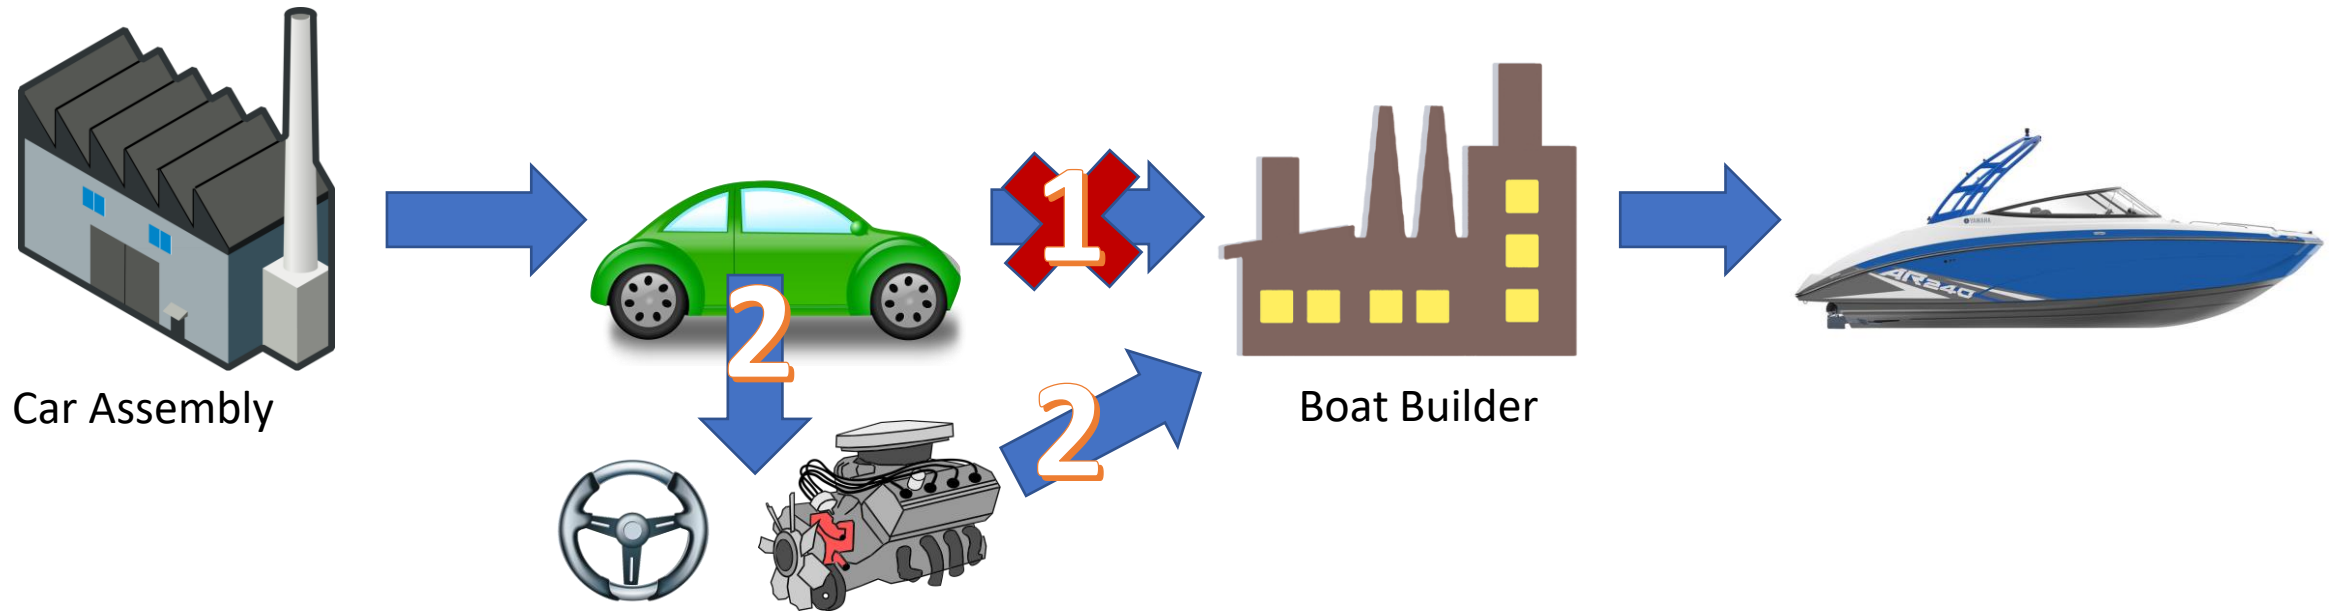

Pictorial Explanation
ByValue vs ByPropertyName

ByValue Pipeline

The output of the Car Assembly Plant (Entire Car) can be used by the Spay Painter
Similar to ByValue Pipe lines

ByPropertyName Pipeline

1. The output of the Car Assembly Plant (Entire Car) cannot be used by the boat builder
 2. But, if we chopped up the car we could use the engine and steering wheel to help build the boat
- Similar to ByPropertyName Pipelines
